The Nights chords by Avicii Capo 6

```
     Am
Hey, once upon a younger year     When all our shadows disappeared
     G                          Am
The animals inside came out to play

Hey, When face to face with all our fears Learned our lessons through the tears
      G                             Am
Make memories we knew would never fade
           F
One day my father he told me
            C
Son, don't let this slip away
    G                                Am
He took me in his arms, I heard him say
               F
When you get older
                     C
Your wild heart will live for younger days
 C/G                       G
Think of me if ever you're afraid
              F                                  C
He said, one day you'll leave this world behind
            G                Am
So live a life you will remember
            F                               C
My father told me when I was just a child
                 G                Am
These are the nights that never die

My father told me       [Instrumental]   F C G Am x4

When thunder clouds start pouring down  Light a fire they can't put out
 G                                  Am
